Mylan, whose application for a rival generic was turned down in March, disclosed on Wednesday that the FDA had designated its application as requiring a major amendment. LONDON Reuters - GlaxoSmithKline is likely to escape generic competition to its blockbuster lung drug Advair in the United States this year, after a second application for a cut-price equivalent form of the medicine was turned down by U. Teva Pharmaceutical Industries has launched a cut-price competitor to Advair in the United States but its product is not a true generic, despite containing the same two active ingredients, fluticasone propionate and salmeterol. Nonetheless, generics are expected in the United States eventually and he noted that GSK was giving a 20 percent discount on Advair this year in anticipation of their arrival. GSK has a number of new respiratory drugs in which sales are rising but the loss of Advair, when it happens, will still hit profits, since the old drug generates high margins. Hikma said it was in the process of reviewing its response, adding it appeared no material issues were raised to prevent its proposed inhaler device being classified as a substitute. See here for a complete list of exchanges and delays. A GSK spokesman reiterated that guidance on Thursday and shares in the company, which were trading excluding a 19 pence interim dividend, were little changed in morning trade. Answers On Innovation Thomson Reuters. Hikma and Mylan have received so-called complete response letters from the FDA that were categorized as major. UBS analyst Michael Leuchten said the problems faced by Hikma and Mylan highlighted the challenges of making a generic copy of Advair that was acceptable to the FDA, although such copies were already available in Europe. If they had launched by mid-year, it had forecast EPS would be flat to slightly lower. GSK has been bracing for the launch of U. All quotes delayed a minimum of 15 minutes.
