In November, Actavis held about 50 percent of the market for generic Concerta, according to an analysis Mr. Newsletter Sign Up Continue reading the main story Please verify you're not a robot by clicking the box. That time frame is important, because the pill can be taken only once a day. The lack of action by the F. A spokeswoman for Walgreens said the Actavis product had been its preferred generic since , although it continues to stock the other two versions because some doctors write prescriptions for them; more than 99 percent of its extended-release prescriptions were filled with the Actavis product in May. His feelings changed last November, however, when the Food and Drug Administration announced that two of the three available Concerta generics, one made by Mallinckrodt Pharmaceuticals and the other by UCB, could no longer be considered the equivalent of the brand and, in most states, could not be automatically substituted by pharmacies for the brand name. He was unconcerned when, a few years ago, pharmacies began substituting lower-cost generic alternatives for brand-name Concerta after all, generic drugs are widely seen as effective and account for the overwhelming majority of prescriptions filled nationwide. An error has occurred. He would not comment on suggestions by some that pharmacies and insurers are motivated to sell the cheaper brands because they reap financial benefits from doing so. The Mallinckrodt and UCB products use different techniques, which may account for the shorter effectiveness. A third product, sold by Actavis, was found to be equivalent to the brand. Rite Aid would not comment on its financial arrangements with the generic companies, or on whether its pharmacists were asking doctors to switch prescriptions. He said CVS was dispensing more of the Actavis product than the other two versions. A spokeswoman for the F. UCB has said it submitted new information last week that will show it is equivalent to Concerta, although it has not shared that information publicly. When Concerta was approved in , it was welcomed by doctors because it eliminated the need for patients to take Ritalin three times a day. Please upgrade your browser. The agency allowed the companies to continue selling their drugs, but gave them six months to either prove the drugs were equivalent, or remove them from the market.
