I think wait never mind prices, but you could find change on the ground to buy a box. So in order to get to a product that you found to work through self medicating you have to jump through alot of hoops indeed'? Yeah no that's not true. Lets just think of that 10 mg. P im surprised clonazepam isnt on there, diazepam isnt as easy to get anymore Yeaah Paderyl is a bit tougher to buy cuz, well, since it's pure codeine pharmacists kinda suspect you wanna buy it to get high. If I'm not mistaken Paderyl has a tad more mg. Actually sorry I asked questions that would make you break the rules, I can simply find this on a search. Alprazolam may be the staple tool around the world but it has a stigma almost like "the crack of benzos" in Finland, and the general consensus among doctors is that it's the most addictive, easily abusable benzo there is. Luckily for me, for some reason I apparently don't look like a drug user at all so they usually don't have any problem selling it to me haha. As far as prescriptions go, I can't find an official list but they'll give anyone benzos Not all pharmacies have it in the first place either. From the Finnish Medicines Agency: They usually check the system, say it doesn't exist and give me Tussipax with a judgmental stare.Feb 21, - Widely used heart/blood pressure medications like inderal (propranolol) are so cheap at home, I can't imagine them being much cheaper (or worth the hassle of getting a prescription) in France. But again, since it is a cardiac drug and you are under another doctor's care, unless it was an emergency use, any. Sep 2, - I have always bought Doliprane in France as a painkiller, if I needed one or my kids did - had no idea it had codeine in it. I do love to buy Donormyl, though; it's the only thing that has ever enabled me to sleep on a plane (and I have no idea what's in it, or whether it's something that wouldn't be OTC in the. May 19, - I didn't say "no" association; I just don't think that there is any added benefit of using this alternative name. A pharmacist will think alprazolam the preferred way to refer to this drug, and likely recognize Xanax equally, if the OP has a labeled contained that says that (it may or may not list the generic name). Originally posted by powellzk Hope someone can help. We will be in barcelona France and Italy. Will I be able to buy prescribing meds over the counter at any of these ports? It depends on what medication you're looking for, and whether you need to use a specific brand or whether the generic works as. Jan 27, - Standing bemused in the middle of a foreign pharmacy, unsure what to buy or even of what the hell is going on, can make you feel like the world is caving in where chains like Duane Reade and Boot's dominate the market, the vast majority of pharmacies in Paris (and France) are independently rubeninchids.comg: xanax. City-Pharma. star rating. reviews. Pharmacy. Saint-Germain-Des-Pres, 6eme. 26 rue du Four Paris France. Phone number 01 46 33 20 Rita S. Take a xanax, prepare your list and dive in. This place is a mad house, but for a good reason, they have almost any beauty product you want to buy in read more. the most common OTC codeine formulas are mg Tylenol/20mg codeine "CoDoliprane". WARNING- Acetaminophen abuse can and will result in liver damage. There is cough syrup "NeoCodion" with no acetaminophen. There are also "NeoCodion" pills containing codeine 25mg/Sulfogaiacol mg. Nov 15, - The doctors back home finally told me I should go on a daily low dosage of antibiotics. I knew there had to be a better way so I refused the drugs and moved to France (the one, though, was not the cause of the other). In Paris, the first thing the French doctor said to me was Do you wash with an intimate. so i know in some countries you can buy things over the counter that you cant in the USA, like codeine or maybe even benzos. does anyone have the lowdown on what is available in europe over the counter? specifically portugal, spain, france, holland, and england. I was wondering what countries allow you to purchase benzos from a pharmacy without a prescription. Drugs like diazepam, oxazepam, clonazepam, etc.
