A generic drug contains the same active ingredients and must be equivalent in strength and dosage to the original brand name drug. Moreover, they can be purchased at hefty discount prices above and beyond our already low prices on Canadian medications. These are trade or brand names registered by the manufacturer. The fillers that are added to make the brand or generic are what gives the drug its color, shape and size. These fillers have no medical use and do not change the effectiveness of the medication. Jerome Levenson , Mar 6th, Return to top World Brand products are brand-name items made by the same manufacturer as the equivalent product you'll find at your local pharmacy. Buy Risedronate Sodium mg: You must submit the prescription you obtained from your physician to order this medication. Generics and brand equivalent drugs contain the same active ingredients, but they may be different in the following ways:.
