Do not take more of it, do not take it more often, and do not take it for a longer time than your doctor ordered. Read and follow the instructions carefully. This content does not have an Arabic version. Any use of this site constitutes your agreement to the Terms and Conditions and Privacy Policy linked below. Terbinafine may cause caffeine to stay in your body longer than usual. If you miss a dose of this medicine, take it as soon as possible. To do so may increase the chance of side effects. If you need help in planning the best time to take your medicine, check with your doctor. Advertising revenue supports our not-for-profit mission. Also, it is best to take the doses at the same times every day. If you are using the oral granules, you may sprinkle the contents on a spoonful of pudding or other soft, non-acidic food such as mashed potatoes. This mixture must be swallowed immediately without chewing. If your next regular dose is less than 4 hours away, wait until then to use the medicine and skip the missed dose. If your dose is different, do not change it unless your doctor tells you to do so. The amount of medicine that you take depends on the strength of the medicine.
