Dulcolax Rating Summary User Ratings They showed me the box and said try this. I was throwing up in pain as well. I take 2, I would never take 3 I would expect my body wouldn't be able to cope with so many, and 1 wouldn't be enough and I just get the cramps! You know with a laxative a few hours after taking it you get those weird rumbles in your belly, then you painlessly poop. Anonymous taken for less than 1 month January 11, Dulcolax - is there any concern for negative interaction with coumadin? Lower dosage simply don't work for me at all. I passed 9 days no bowel movement, and took one pill at 8 am, I go to the toilet at 3 p. It wasn't that bad, it was bearable, cramps during menstruation is way worse. Another 2 hours later I rushed to the bathroom because I had to go and yes it was uncomfortable but I didn't have to strain or anything. Between horrendous stomach cramps I was vomiting , cold sweating and passing out. I feel so much better. I took 2 of these things for painful constipation. Dulcolax - I threw up 20 minutes after taking 2 pills. But this is horrific. It gives the worst stomach cramps ever. I slept on the floor for a while, cramps eventually eased and I was able to go back to bed. Hoping this is close to the end of this nightmare!!! I went 9 days without a bowel movement and I took 2 pills last night and I woke up this morning and had a bowel movement, but it took me about 3 hours of excruciating pain to push it out.
