I'd feel comfortable strolling into a Walgreens or CVS Pharmacy and picking up a bottle of store-brand cough syrup. When it comes to deciding whether to buy generic products or brand name, I usually go generic if the product is a regulated commodity. In the zero-sum game that is budgeting, a dollar you spend is one that you can't put in your savings account for a rainy day. This post may contain affiliate links. In the White House shuffle, trade guru Navarro takes spotlight. In many cases, the same manufacturers produce the generic products and the brand name. Of course, it is always a good idea to talk to your doctor before trying any new medication. Search by Item Looking for a deal on something specific? Super Bowl commercials: Come take a look! If you're shopping for allergy medication, we'll assume your eyes are itchy, your nose is running, and you can't stop sneezing. Most require a prescription, but Nasacort is one that just became available over the counter. Finally, I go with generic products when I just don't care about what I'm buying. With or without a decongestant, Allegra, Claritin, and Zyrtec are all antihistamines, meaning they calm down your body's immune reaction to allergens like pollen or animal dander. Do you need a decongestant? This may sound obvious, but the key thing to pay attention to is not what's written on a box, but what actually works for you. All content on this site is created by Jenny and her helpers and it's illegal to steal it! Say no to allergies and stock up! Download Get the Mobile App. Would you rather pay more and get a quality product or pay less and get something lesser in quality?LORATADINE; PSEUDOEPHEDRINE (lor AT a deen; soo doe e FED rin) is a combination of an antihistamine and a decongestant.
