Most milligram dosages cost the same as milligram. Could it Work for You? At the very least you will be armed with more intelligent data before you talk with your doctor. Most retailers are now passing this same kind of discount on to you, so you may only need to travel to your new retail pharmacy once every 90 days. Ask your physician about prescribing twice the dosage you need daily, and splitting the pill in half. Are you willing to change pharmacies to save money on prescription drugs? The Wal-Mart program has alerted the general consumer to the fact that generic substitutes are valuable money savers. Most of the generic programs offer approximately to generic drugs at the discounted price. Well, the cost for actually filling a day prescription is the same as filling a day prescription, so you get the savings for buying the extra two months in advance. One of the better places to do this is at www. Now they are available at retail without regard to health insurance, and that will help all of us maintain our health more cost effectively whether we have insurance or not. Or even pay less for your prescriptions next year? For instance, if you now take Pravachol for cholesterol control, the generic version called pravastatin is probably available for the deeply discounted price. What if you could save that potential increase? And since most health insurance policies are increasing co-pays for drugs significantly, we all can benefit by considering one or more of the steps above. There are over 10, outlets nationwide from just the stores mentioned above. Most insurance companies are detailing how you can obtain low cost substitutes for brand name prescription drugs, and are giving out valuable information that will make you a more informed health care consumer.
