It contains 10mg oxycodone and mg acetaminophen. I thought the yellow ones were 7. There is a difference in generic vs. Do a search on pill ID. The big yellow ones. I really like generic vicodin better, besides the cost, it also made me alot less sleepy than regular vicodin, so I could actually enjoy it. I like the watson's and mallinkrodt's SP? But, for the apap formulations and for benzodiazepines, I've never noticed a difference. I guess what i'm asking is will i be disappointed if i go with generic or are the basically very comparable. You have different fillers that may impede or accelerate absorption, you have the actual volume of the drug in the pill. IMO there can be a difference. I have had both the generics and brand name many times and I dont notice a difference in them at all. Way of the world.  
Jul 26, - What is Lortab? Lortab is a prescription medicine that combines hydrocodone and acetaminophen for pain relief. It's a brand name, and there are generic versions available. Some of the other brand names for Lortab include: Anexsia; Ceta Plus; Co-Gesic; Dolorex Forte; Hycet; Lorcet Maxidone; Vicodin HP. The biggest difference between the opioid ingredients in these two drugs, hydrocodone and oxycodone, is strength. Oxycodone is considered to be more potent than hydrocodone. Thus, Percocet is stronger than Vicodin. Both of these drugs have restrictions on them. The Food and Drug Administration issued a warning in.  
Nov 30, - Vicodin tablets: mg of acetaminophen with 5 mg, mg, or 10 mg hydrocodone; Generic tablets: mg or mg of acetaminophen with mg, 5 mg, However, a different study found that oxycodone, the drug in Percocet, was times more potent than hydrocodone, the drug in Vicodin, when.  
Dec 7, - Tramadol and hydrocodone/acetaminophen (Vicodin) are powerful pain relievers that can be prescribed when over-the-counter medications don't There are many generic brands of hydrocodone and acetaminophen too. The medications work better if they are taken before the pain gets unbearable.  
Jan 4, - Oxycodone and Vicodin (hydrocodone/acetaminophen) are drugs prescribed to treat moderate to severe pain. The 60 and 80 tablets or single doses greater than 40 mg should only be used by patients who have been using opioids and have become tolerant to  
Tips to Better Manage Your Migraine.?What are the side effects of ?How should oxycodone vs.  
Feb 3, - 13 Answers - Posted in: norco, pain, back pain, hydrocodone, generic - Answer: I have taken both, & have found they both work about the same. think the white ones are better, idk maybe it's different for people, but to be honest, the peach colored / Norco are the BEST, I like those better than 10's, Difference between two tablets that are the same.  
Jun 16, - Probably because the active narcotic in Percocet is actually Oxycodone and not Hydrocodone like in Vicodin, while they are both opiates Oxycodone is a much stronger opiate and basically prescription heroin. Reply. ff on May 24, am. Keith.. Oxycodone is x stronger than hydrocodone.  
Aug 26, - Brand name vs generic. I know there's other stories on brand name meds vs generic but even my Dr thinks they're stronger. . Brand name products will make sure they put the full 10mgs of hydrocodone while generics depending on the brand won't because they know as long as they meet the range.  
Apr 16, - Conventionally, patients who have moderate to severe pain have been offered one of the opioid-nonopioid combination drugs, such as acetaminophen plus hydrocodone or oxycodone. Are they the same? What's better? What is the prescription I have? It seems complicated but it's notlet's shed light on.  
May 1, - Pure hydrocodone opioid painkiller could be on market as early as
