Swallow the pill whole. This includes black, bloody, or tarry stools, or coughing up blood or vomit that looks like coffee grounds. It is specially made to release medicine slowly in the body. If you have questions about side effects, contact your health care provider. Read the label of any other medicine you are using to see if it contains aspirin, ibuprofen, ketoprofen, or naproxen. Use a sunscreen and wear protective clothing when exposure to the sun is unavoidable. Do not use this medication if you are allergic to Voltaren, or if you have a history of allergic reaction to aspirin or other NSAIDs. Older adults may have an even greater risk of these serious gastrointestinal side effects. Diclofenac can pass into breast milk and may harm a nursing baby. This is not a complete list of all side effects that may occur. Do not use this medication without telling your doctor if you are breast-feeding a baby. Do not use this medicine just before or after having heart bypass surgery also called coronary artery bypass graft, or CABG. Do not start using a new medication without telling your doctor. Taking any of these drugs with Voltaren may cause you to bruise or bleed easily.*Please note that not all products available online are available in the stores. In addition, some stores may have slightly different prices on selected lines. *All Online Orders for rubeninchids.com are picked packed and fulfilled by Chemist Warehouse sister company ePharmacy Pty Ltd. *All crossed through. Voltaren tablets are a brand of tablets containing the active ingredient diclofenac. You can buy them over the counter at a pharmacy. Voltaren belongs to a group of medicines called non-steroidal anti-inflammatory drugs, or NSAIDs. Voltaren is used to reduce pain, swelling and redness in conditions such as osteoarthritis. Diclofenac is made in a variety of forms, including tablets (standard, rapid, modified-release, enteric-coated), gels, spray, suppositories, and injections. Tablets are taken whole with water, preferably while you are having a meal or just after. Another medicine may be prescribed with diclofenac tablets to protect your stomach.
