You can browse Drugs A-Z for a specific prescription or over-the-counter drug or look up drugs based on your specific condition. Rated Wellbutrin Bupropion for Depression Report I feel amazing after taking it only 7 Days, my desire to smoke or drink as minimal and I feel totally different, would highly recommend Report. I take mg daily. I know everyone reacts differently to medication, but this drug has so far been a huge help to me and might be worth trying if you're on the fence. I don't take naps anymore and I have had tons of energy and I'm happy and I am active again. Rated Wellbutrin Bupropion for Depression Report I've been taking wellbutrin for about a month and I have developed a real sore neck and shoulder. I'm currently taking 20mg of Prozac along with mg of Wellbutrin XL, and it has made a world of difference. If I had to do it all over again I would. I started to feel the side effects, I got A LOT of anxiety, I was very shaky, my thoughts felt to be very rapid and not scattered but broad- like I thought about everything and the "topic" I was thinking about would quickly change. My problems haven't changed, but I feel more capable of handling them. Otherwise, I feel good, I can get out of bed before noon now, and actually feel excited for the day, instead of dread. Previous 5 of Next. Apr 19, - I meant to say, are you taking the SR version or the XL version of bupropion, the generic version of wellbutrin, lol. My bad BR. bryansmom 18 Apr I am on the xl, I have been having daily headaches for a couple years now. Both my pcp and neurologist never suggested that this medication could be Bupropion - Is headaches a side affect at first that will. Nov 20, - Wellbutrin (generic: bupropion) comes in regular release, sustained release (SR) and extended release (XL). I started on mg of the generic sustained release. My diet is heavily restricted, so I don't eat many calories at once and eat few carbohydrates, both of which seem to make me more susceptible to. Hi everyone, My girlfriend has been on mg 1xday wellbutrin generic and has had bad headaches everyday. The headache powders has not helped her. She is Wellbutrin XI And Headaches - Wellbutrin (bupropion. Wellbutrin (bupropion) is an antidepressant in the aminoketone class used for the management of major depression and seasonal affective disorder. Wellbutrin is available in generic form. Common side effects of Wellbutrin include: agitation.; dry mouth.; insomnia.; headache.; nausea.; vomiting.; constipation.; stomach pain. Jul 17, - These were psychosomatic reactions (headache, anxiety, irritability, nausea, dizziness, insomnia, tremor, mood swings, panic attacks, depression, suicidal thoughts, etc). A highly-placed FDA staffer insisted that such side effects could not be brought on by the generic drug. Budeprion and Wellbutrin were. I am a year-old overall healthy female who was prescribed this medication for migraines, occipital neuralgia, and moderate depression due to the prior mentioned. Wow, do headaches and migraines hurt, ugh no wonder I was mild/moderately depressed. The good news is since since starting Wellbutrin (generic), I have. Okay, I have been on Wellbutrin xl (generic) for more than a month now. I am still a little jittery in the morning but not as bad. I get headaches every afternoon/evening and so I have to beat them to the punch with an Aleve at about and even then I may still get the headache but just not as bad. Constipation has set in. At my Dr. Visit last Monday I told him I didn't really notice anything except some very mild headaches and a touch of insomnia. He increased my dosage to mg 2x a Here's a \*legitimate\* webpage, about Bupropion/Wellbutrin: rubeninorchids.com Do read it, because it's important to. Mar 19, - I began taking mg of the generic Wellbutrin several weeks ago. There was a . I just thought it would pick up where the generic left off, so to speak. . i had been getting headaches the last few days - but i'm not sure if that's related to wellbutrin because i had been taking it for weeks w/o any problems. I have been having horrible headaches behind my eyes, like sinus headaches. I thought they were caused by my lupus and sensitivity to light, but I practically live in the dark in my room, teamboard.
