Please enter a valid email address. The restrictions give clients in recovery an opportunity to get high using drugs they legally obtained and still pass a drug test. It is widely considered non-addictive and touted by the federal Centers for Disease Control and Prevention as an alternative intervention to opiates for chronic pain. Also known by its brand name, Neurontin, the drug acts as a sedative. Rachel Quivey, an Athens pharmacist, said she noticed signs of gabapentin misuse half a decade ago when patients began picking up the drug several days before their prescription ran out. Newsletters Sign up for our Daily Recap newsletter. As providers dole out the drug in mass quantities for conditions such as restless legs syndrome and alcoholism, it is being subverted to a drug of abuse. The drug, which is not an opioid nor designated a controlled substance by federal authorities, is used to treat nerve pain. Its latest round of screenings detected the drug in five of its roughly active participants, prosecutor Keller Blackburn said. For customers who arrive with scripts demanding a high dosage of the drug, Quivey sometimes calls the doctor to discuss her concerns. Nearly anyone arrested and found to struggle with addiction in Athens is given the option to go through a drug court program to get treatment. Notify me of followup comments via e-mail.
