No you hadn't confused me by the way. Someone on the Menopause Matters Forum tried to get me to try a local Oestrogen and i was reluctant but I did have a prescription for this which i obtained in and didn't use. Test a week ago found nothing but i had all the symptoms. I have been applying it the past 4 evenings and now think that it may be working. It works better for me than any other antibiotic I've ever been prescribed for a UTI.

Macrobid (nitrofurantoin) is an antibiotic used to treat urinary tract infections. Generic Name: nitrofurantoin (NYE troe fue RAN toin) What is Macrobid?
