The availability of drugs from online pharmacies without the need for any formal diagnosis is alarming. Investigators receive numerous reports of Viagra ordered online that never arrives at its destination. In the unregulated and often unsanitary conditions of these illegal drug laboratories, the drug's calibrations can easily be incorrect, meaning the buyer may get a lot more - or a lot less - than they bargained for. Orders of Viagra have been known to arrive in unlabeled plastic bags and even loose in mailing envelopes. If you choose to purchase Viagra online, there are precautions you can take to ensure safe delivery of the correct drug. Most of the sites advertising Viagra promote it as the genuine product but there is no sure way of knowing what you're getting, or where you're getting it from. They continue to meet the very highest standards and have remained one of the best resources we have found.
