

retail price for benicar

If you take AZOR, tell your doctor if you also take: AZOR is not for use as the first medicine to treat high blood pressure for people who are 75 years of age and older or have liver problems. Tell your doctor if you get swelling in your feet, ankles, or hands, or have unexplained weight gain. Medicines that lower blood pressure lower the chance of having a stroke or heart attack. Along with lowering blood pressure, a complete treatment plan to lower the chance of a stroke or heart attack may include exercise, a diet low in sodium, stopping smoking, controlling cholesterol, treatment or prevention of blood clots, and controlling blood sugar. This may cause serious side effects. By using this offer, you certify that the Eligibility Criteria are met. Patients should always ask their doctors for medical advice about adverse events. You are encouraged to report negative side effects of prescription drugs to the FDA. You should not do both. AZOR may be used as the first medicine to treat high blood pressure in people who are likely to need more than 1 blood pressure medicine to reach their blood pressure goals. Tell your doctor if you have these signs and symptoms: Do I need insurance? The Pre-activated Savings Card. Other less common side effects were blood pressure that is too low; blood pressure that becomes too low after standing up too quickly; rash; itching; pounding or racing heartbeat; more frequent urination; and excessive urination at night. To report side effects, contact Daiichi Sankyo, Inc. It is illegal for any person to sell, purchase, or trade or to counterfeit the Savings Card. If your product is available as a generic, you may pay less with other offers or by receiving the generic.
