If you feel that this is a mistake, please contact us by opening a ticket with the following information: Snorting it is too much work in my view, and nasty on the nasal passages. With stimulants, I think it very much up to user what level of stimulation they desire. Chair Denis Healy Send email. Too much of a hassle trying to snort or anything like that. It helped a little but not a lot. I have a dozen or so bottles of the 36mg ones, and IIRC the stronger ones I have contain 54mg methylphenidate ER, I don't remember I strongly dislike this medication, it's just caffeine with a turbocharger. When I used amphetamines, I didn't like anything more than a strong cup of coffee feeling, as I don't like the side effects with a high dosage. Basic Drug Discussion Forum Guidelines.
