You can see I still have red marks three years later. However, if you inject an area too often or with too much of the cortisone, it can leave an indented scar, which often happened to me. Some dermatologists also like to use bactrim. I did a one-week round of prednisone and it completely cleared up a breakout I was having. I went crazy buying all sorts of acne washes, masks and creams from drugstore brands to top-tier stuff at Sephora. I got five IPL sessions but really I could have, and probably should have, stopped after three. However, IPLs are very expensive and should really only be administered by a dermatologist. A word about antibiotics: My skin is now normal. Birth control that ONLY contains progesterone can actually make acne worse. I wanted to use it all the time but my dermatologist told me that too much of it can lower your immune system and refused to refill my prescription. In the meantime, my skin was covered in red bumps and was flaking off from all the salicylic acid I was dousing it in. MINOCYCLINE 75MG TABLETS. MINOCYCLINE ER 90MG TABLETS. Prices With Insurance.
