There is a reason and it is because benzos have an ability to create insane tolerance and very subjective results depending on your use of benzos. Ratiopharm is also awesome. But as has been discussed many times, generics are no different to brand Name, i would attribute it to either, taste, texture or placebo. Pfizer owns the trademark name to Xanax, so if you ever get a brand name xanax, its made by phizer. But, like I said the mind is a powerful thing! So I go in today after seeing him and they only have generic ones. I still refuse the mylan alprazolam. I am not in this to get high - I just want the best, highest quality Xanax product I can get. I suggested to my doc that he try writing me a script for a brand name Xanax, rather than just the generic 2mg Mylan ones I've been getting The Mylan's kinda suck to be honest. Otherwise, I could try going to other pharmacies like Wallgreens etc So, the brand name of Xanax in the U. The best clonazepam I would say are EON. Exactly, if on your prescription it is written "Xanax" you are entitled to ask for xanax, if they do not have it, they can order it for the next day normally I was of the mind that there is no difference between brand name and generic drugs, it is only with the Benzos where this theory applies. If you are in Canada, Apotex is awesome. CVS I assume most of you know this massive chain has been my pharmacy for a long time, and it's nice having all my info and medcare all in the computers, so all I do is roll in, grab what I came for and pay a small co-pay that my parents even reimburse me for. I was prescribed Xanax for years, always got generics, many different kinds of generics over the years and I never noticed any difference, except that 2mgs felt stronger than 1mg, obviously. By definition there is ONLY 1 brand name xanax, its called xanax. I also know purepac lorazepam ok I sound like a sales rep lol, are the best ativan Aug 13, - I have a bad reaction to Sandoz. Only Greenstone brand Alprazolam or Xanax works for me. I see both brands come under the Giant Phisher name now. They have bought up many smaller manufacturers or merged. JO. Josh Anderson 17 Feb Is Greenstone or Sandos labs more effective. Wicch do. Results 1 - 20 of 44 - I take these Sandoz 2mg alprazolam, marked 'GG ' when in desperate need - the quality is pretty dire. A 2mg tablet feels more like a 1mg to me (I normally use Xanax brand or Gador's excellent ALPLAX from Argentina); however I recently came upon an image of a Sandoz USA 2mg bar whose imprint. Product Catalog. Search for generic or brand product names using this interactive page. Sandoz in the US also publishes a generic-to-brand pocket guide which is available via mail. I recently visited drugs dot com, and came across Alprazolam made by Sandoz, with TWO different looks!?! It doesn't have a Best Generic Brands for Opiates and Benzos. Jul 11, - Has anybody tried more than one generic brand of Xanax or Alprazolam? Which brand do you use or have you used? What differences could you notice between the brands? Which do you prefer? I started using Sandoz brand. I have always been skeptical about the whole anxiety thing and medication but. Generic Xanax. The best generic brands are as follows 1) Greenstone - as they are manufactured by the same pharmaceutical company that makes the brand name pills and 2) Sandoz - they are as close to real thing, as a generic (other than Greenstone) can get to the brand name. My doctor always rights. I went on some drug board and found a discussion about the generics and that they have a 20% variation in bioavailability. It also said there is a difference in strength of the generics, and that SANDOZ is one of the weakest, and Greenstone (a division of Upjohn?) is the closest to the name brand Xanax. Jun 13, - Q. The generic form of Xanax, alprazolam, does not work for me. It is at best 50 percent effective. A few years ago I was given alprazolam in place of Xanax. My panic attacks came back with a vengeance. I kept thinking I had missed a dose. After three refills over three months and a visit to my doctor, I asked. I suggested to my doc that he try writing me a script for a brand name Xanax, rather than just the generic 2mg Mylan ones I've been getting. although i suport the theory that 2 mgs is 2 mgs, and 1 mg is 1 mg no matter what generic it is, i have found that the best generic is sandoz. i only buy bars for.
