The data, experts said, suggest that Lipitor and its generic versions will increase dominance of the market. So, how to choose? Still, experts said the differences may not persuade many patients to switch to or stay on Crestor, known as the most potent of statins, given that Lipitor the best-selling drug ever will soon cost a lot less. Participants were randomly assigned to take high doses of either Lipitor 80 mg or Crestor 40 mg daily for two years. For many patients, it will likely come down to money: But after the patent on Lipitor expires on Nov. The new study, led by Dr. In a head-to-head test of two popular cholesterol-lowering statin drugs Lipitor and Crestor both medications worked equally well. They also had fewer heart attacks, strokes and angioplasty procedures than would typically be seen in patients on less aggressive statin regimens. Stephen Nicholls, clinical director of the Cleveland Clinic Center for Cardiovascular Diagnostics and Prevention, included more than 1, patients, average age 57, with coronary artery disease. LDL levels in the Crestor group dropped to an average By the end of the study, both groups had significant reductions in the fatty plaque lining their arteries, with few serious side effects. Kesselheim was not involved in the current study. On some measures, patients taking Crestor did better than those on Lipitor: Patients taking Crestor also had higher levels of good HDL. Crestor (rosuvastatin) is used to lower cholesterol levels. Rosuvastatin is slightly less popular than other statins. It is available in brand and generic versions. Generic rosuvastatin is covered by most Medicare and insurance plans, but some pharmacy coupons or cash prices may be lower. The lowest GoodRx price for the. Product, Lowest Unit Price. Crestor 20mg.
