What needs to be discussed with the doctor? It is efficient for the treatment of cold sores, shingles, genital herpes and chickenpox. There are other drugs that Diflucan can interact with, and you need to report them to your health care provider as well. If you have a history of an allergic reaction to Zovirax, make sure you do not start taking it without your doctor's consent. To view content sources and attributions, please refer to our editorial policy. How can Zovirax help me? Before you can start the treatment, your doctor will need to know your full medical history to be able to determine the right dose of Diflucan. Missing doses too often can affect the success of your treatment, so try to remember to take your dose. All drugs should be bought strictly on doctor's prescription from authorized suppliers! It does not kill the virus and cure your herpes.
