So, how to choose? Sometimes they are serious, most of the time they are not. Therefore the only time we can supply an increased quantity of a prescribed medicine is if the doctor prescribes that quantity for you. Tell your doctor if you notice any of the following and they worry you: Your doctor will advise you on the dose that's right for your condition. Cholesterol is used for such things as building cells, making bile acids which help to digest foods and making some hormones. A small number of patients may need to further increase their CRESTOR dose to 40 mg once daily, for example patients whose high cholesterol is hereditary. LDL levels in the Crestor group dropped to an average. Pharmacist Only Medicine This product is a Pharmacist Only Medicine and requires pharmacist advice before we can dispatch this product. Swallow each tablet whole with a drink of water. Your doctor will monitor your cholesterol and triglyceride levels during your treatment, and, if needed, may increase your CRESTOR dose to 20 mg once daily. Any prescriptions from any other state cannot be filled and will be returned in the mail. By the end of the study, both groups had significant reductions in the fatty plaque lining their arteries, with few serious side effects. The resource to the URL or file is currently unavailable. High cholesterol is also more likely to occur with certain diseases or if you have a family history of high cholesterol. Pharmacists cannot dispense the item as a pharmaceutical benefit unless it has been approved by Medicare Australia indicated by the presence of the approval number. They are fatty substances needed by the body for many things. Too much of the "bad" cholesterol LDL can block the blood vessels that supply your heart and brain with blood, and can cause heart attack, angina and stroke. Stephen Nicholls, clinical director of the Cleveland Clinic Center for Cardiovascular Diagnostics and Prevention, included more than 1, patients, average age 57, with coronary artery disease.
