At that price, I would prefer the brand-name product. Pfizer, which sells Effexor XR, would lose a sale. Drug manufacturers also offer coupons for drugs without generic competition, but they were not the focus of the study. In , 90 percent of prescriptions that were filled were for a generic equivalent to a brand-name drug, when such a generic was available. Please upgrade your browser. September 27, An Upshot article on Tuesday about the effects of coupons on drug prices misidentified the maker of Effexor XR. Perhaps in response, Americans are using more generics. By encouraging patients to switch from generic to brand drugs, coupons effectively impose higher costs on insurers. Thank you for subscribing. But from to , brand-name drugs with coupons grew as a share of retail drug spending, to 54 percent from 26 percent. The company is by no means alone in this tactic. The circumvention of insurance plan designs by these coupons has long been suspected to contribute to drug spending and premium growth. Events Guide Television Theater Video: A recent study examining data from through and published in The American Economic Journal: But in the long term, encouraging consumers to use generic drugs when available which is what insurers are trying to do would reduce drug spending and premiums for everyone. And Massachusetts has passed laws that ban co-pay coupons for brand drugs with generic equivalents. You must select a newsletter to subscribe to. But if the coupon is causing you to switch away from a generic drug with an overall lower cost, you may be playing a role in pushing up drug spending and premiums for others. This raises spending, too, but for the insurer. Venlafaxine ER (Effexor XR) is a moderately priced drug used to treat depression. Generic venlafaxine ER is covered by most Medicare and insurance plans, but some pharmacy coupons or cash prices may be lower. The lowest GoodRx price for the most common version of venlafaxine ER is. Generic Equivalent To Effexor XR Capsules. Price: Select Quantity Below.
