So, when can we expect one? Once a generic product is available, pharmacies will be allowed to automatically swap the brand product Advair with a generic Advair in order to save the customer money. The patent in some countries has already expired, and so you can find a generic Advair in some locations around the world. To view content sources and attributions, please refer to our editorial policy. We comply with the HONcode standard for trustworthy health information - verify here. By designating a single reference listed drug as the standard to which all generic versions must be shown to be bioequivalent, FDA hopes to avoid possible significant variations among generic drugs and their brand name counterpart. Reuters reported in December, that Denmark was the first to approve a generic Advair in Europe. Ask your health care provider for advice if you are unsure about the online purchase of any medication. Well, the reason for this is actually quite complicated. A Reference Listed Drug RLD is an approved drug product to which new generic versions are compared to show that they are bioequivalent. One Downside to Being a Baker: So, unless a generic company can somehow invent a new Advair delivery device a task that has proven to be very complicated and expensive they will have to wait until the Advair Discuss patent expires before they can market their product. Depending on where you live and what insurance company you use, the prices for Advair in your area may vary.
