The chat platform is currently undergoing maintenance. It is now a long time since Sandoz has been working to launch a substitutable generic for Advair in the US. I expect 30 percent erosion in Advair sales because of generic competition in EU by and another 20 percent because of competition from therapeutic substitutes. Since Boehringer Ingelheim is already an established player in the respiratory space, this won't be a hurdle for Vectura to get a fair share of the market. Over the next two years Advair pace of decline will aggravate in Europe as competition will intensify leading to market share loss and also affect pricing power. At the time of acquisition, Oriel therapeutics had an Advair generic substitute in Phase 3 development phase. Among the first companies that should reach the market with a substitutable version could be Sandoz and Mylan. But over the next few years the pace of erosion in Advair sales will gather pace as Generic companies roll out Advair copies across Europe. A systematic review published in year , [4] could not derive any significant adverse effect on HPA function, growth and bone mineral density in asthmatic children when inhaled fluticasone is used for long duration and followed for up to three months. I am not receiving compensation for it other than from Seeking Alpha. Advair is GSK 's largest selling drug. Assuming standard review timeline 15 months an approval for generic Advair should come in by 1H Please help improve this article if you can.
