Techincally these drugs do require a prescription but the law is routinely ignored. Although many drugs in Mexico are available over the counter at a pharmacy, certain prescription drugs in Mexico do require a prescription from a Mexican pharmacist, and foreigners have been known to purchase them from people not authorized to issue them. The pharmacist in Mexico is required to keep the original prescription, but you should make sure you don't leave the store with a copy for yourself. There are regulations for bringing in pharmaceuticals from Mexico, however they are changing on a constant basis. Many pharmacies in Mexico have a doctor on staff or next door who charges a few dollars for a basic consultation. Mexican law requires a prescription from a Mexican physician, and that prescription must have the seal of the state health department. This includes painkillers, tranquilizers, and some diet pills. The above information was kindly provided by David Mandich, www. If you are caught trying to bring in drugs without the above requirements you can be stopped, have your goods confiscated and may be arrested. A prescription from a U. A prescription is needed when purchasing a controlled substance. Also, if you're in doubt about the classification of your medication, if it's a controlled substance, the pharmacist will have the official pharmaceutical book with that information. In August of the Mexican government announced further restrictions on the sale of antibiotics over the counter as a result of many people self-medicating improperly during the swine flu epidemic. This writer more than once purchased generic antibiotics from a Mexican chain store supplier of generics that had doctors available for consultations. You can save substantial money on medications in Mexico, but keep a doctor in the loop to be sure you are getting the proper meds and know the right dosages.
