When he got a heart attack aged 45, the taxpayers in his state paid out , in the first few months for his care in a vegetative state he ultimately died. Psychiatry, vol 68 no. Correct me if I'm wrong, but the mechanism of action in Seroquel's sedative effect is histamine H1 antagonism, just like diphenhydramine. Since there are "so few side effects from atypical antipsychotics" and they can do "all the same things as any benzodiazapine, without being addictive." apparently EVERYBODY needs these drugs! These medications also worked and people didn't mind taking them They worked, but they came with a horrible stigma and lousy side effects. Imagine then, a resourceful person, who, has recently lost health insurance, and due to state cuts, her therapist and psychiatrist, while in current recovery for an eating disorder, along with the typical depression and anxiety. Newer Post Older Post Home. A great deal of patients don't even know what the drugs are -- when asked why she was on Abilify, one patient responded "it's an antidepressant. The state pays whatever it wants. And sometimes they caused a permanent, irreversible movement disorder called Tardive Dyskinesia. It's much easier to get patients to consider taking them and my experience is that in the short run, they help a lot of people feel better and function better. When I lost insurance coverage for my meds, I shopped around and couldn't believe the cost difference.ZIPRASIDONE is used to treat schizophrenia and bipolar disorder, also known as manic-depression.
