Wellbutrin can cause you to have a false positive drug screening test. Talk with your doctor about changing your dosing schedule. For a manufacturer, aggressively moving extra inventory into distribution channels bears little risk: Take Wellbutrin exactly as prescribed by your doctor. Buy Wellbutrin without Prescription. Wellbutrin contains the same ingredients as Zyban, a medicine used to help stop smoking, and Aplenzin, another medication used to treat depression. Severe allergic reactions rash; hives; itching; difficulty breathing; tightness in the chest; swelling of the mouth, face, lips, or tongue, unusual hoarseness ; chest pain; confusion; dark urine; delusions; fainting; fast or irregular heartbeat; fever, chills, or sore throat; hallucinations; hearing problems or ringing in the ears; menstrual changes; muscle pain; new or worsening mental or mood changes eg, concentration problems, depression, panic attacks, aggressiveness, agitation, anxiety, impulsiveness, irritability, hostility, exaggerated feeling of well-being, inability to sit still ; red, swollen, blistered, or peeling skin; seizures; severe headache or dizziness; severe or persistent joint or muscle pain; severe or persistent nausea, vomiting, or stomach pain; severe or persistent nervousness, restlessness, or trouble sleeping; shortness of breath; suicidal thoughts or attempts; tremor; unusual swelling; vision changes; yellowing of the skin or eyes. Suddenly stopping them may increase your seizure risk. Wellbutrin can be taken with or without food. Use Wellbutrin with caution in the elderly; they may be more sensitive to its effects. Here is a DoD contract out for bid, for example, and here is the generic manufacturing winner. All medicines may cause side effects, but many people have no, or minor, side effects. Wellbutrin may cause drowsiness, dizziness, or blurred vision. This is not a complete list of all side effects that may occur. It is very unlikely that these channels factor into the Wellbutrin XL issue. Wellbutrin XL Side Effects. The common side effects associated with the use of Wellbutrin XL are: Headache; Vomiting; Gain or loss of weight; Skin Rash. If however you notice serious side effects such as seizures, fever, hallucinations or the blistering and peeling of your skin then you must get medical assistance. If symptoms occur such as agitation, hostility, depression or changes in thinking or behavior that are not typical for you, stop taking bupropion and call your healthcare provider right away. High blood pressure (hypertension): Some people get high blood pressure, that can be severe, while taking WELLBUTRIN XL.
