Britt and Caruso, the CVS and Walgreens representatives, respectively, said the law allowing the issuance of the standing order cleared the way for the national pharmacies to provide naloxone without an individual prescription. Centers for Disease Control and Prevention says. Close 1 of 4. The FDA approved the nasal spray Nov. Edit Article Add New Article. Customers at CVS and Walgreens will have to ask for the drug from a pharmacist and receive some counseling about how to administer it and provide care to the person overdosing while emergency responders arrive. Cuba, president-elect of the Louisiana chapter of the American College of Emergency Physicians, added he has seen people be so bold as to drop off someone who is overdosing at the emergency room door and then drive off, apparently fearful they may get in trouble. Photo provided by CVS -- Naloxone is a drug that reverses the effects of an opioid overdose and will be available to patients without a prescription at CVS Pharmacy locations in 30 states by early August. Mitchell on Twitter, NewsieDave. He said he believes heroin overdoses are continuing to rise in Baton Rouge and that the problem cuts across all sectors of society. The FDA considers naloxone a prescription drug and has not approved it for over-the-counter use, CVS and Walgreens representatives said. The law, which took effect Aug. He said the state and nation need to make it harder to sell illegal drugs like heroin, need to get a better handle on how and when legal drugs are prescribed and need to invest more in mental health programs so people with addiction or underlying mental health problems can get treatment. Meanwhile, overdose deaths from heroin, an illegal opioid, also have nearly quadrupled between and , killing more than 8, in , the CDC says.TELL YOUR DOCTOR: If you have an allergy to hydrocodone, acetaminophen, or any other part of this drug.
