Major companies pay for the marketing, advertising, and often development of a drug. Manufacturing, testing, and packaging sites are subject to the same FDA regulations, whether the product in question is a brand name or a generic. Meegan ealasaïd76 wrote in allergies , - 05 - 17 I use it for sinus decongestion, as a result of my allergies. Generic drug manufacturers have no such costs and they pass those savings on to you. Perception versus reality Generics have a perception problem. We will log you in after post We will log you in after post We will log you in after post We will log you in after post We will log you in after post Anonymously. Now get out there and save some money. That's true for fake medicines or placebos which patients frequently respond to when told they will ease pain or even stop asthma attacks. Generic drugs must be "bioequivalent" to brand-name drugs, meaning they have to show up as the same in the bloodstream and work in the exact same way. Researchers analyzed shopping data from , households and found that physicians, nurses, and pharmacists were far likelier than the average consumer to choose generic drugs. Say no to allergies and stock up! Is it under a specific zip code? I found an even better deal at Target: If your doctor prescribes you a brand-name drug, you can ask for the generic if one is available, and it will work just as well. Post a new comment 12 comments. All of these perceptions are wrong. Meegan ealasaïd76 allergies - 05 - 17 I can help you understand coupon terms and abbreviations. They are just less expensive so don't worry about being cheap.
