[Search Help Search Headlines Only](#). Of the eight drugs analyzed, seven cost more in the U. SSR Health, an investment research firm, used prescription data and U. Gilead said its pricing is based on countries' economic and health backgrounds, and negotiations with most governments are confidential. Bloomberg compared the discounted monthly prices with list prices from 14 countries, using local data from IHS Inc. Sometimes the discounts can be 50 percent or more. Existing users login here. The blockbuster product was only slightly more expensive in the U. In Europe, drug prices are often set by government health systems and decline over time as countries demand additional price cuts, said Floriane Reinaud, a principal analyst at IHS. AstraZeneca said each country has its own "pricing structure," while Sanofi declined to comment on drug discounts. Glaxo said it's working with governments to find solutions to significant cost challenges in health care, trying to maintain patient access while "acknowledging the value of our medicines. Novartis says it offers rebates for Gleevec, and that its prices vary between countries for reasons including differences in income, regulations, and type of health system. After an estimated discount of 60 percent, AstraZeneca still charges more than twice as much in the U. Cardiovascular System Sub Section: The drug industry has argued it's misleading to focus on U. A generic version of the drug is expected to be available in the U. It still costs 30 percent more in the U. Even so, Merck gets more than twice as much in the U. Herceptin, Januvia, and Humira prices in China are based on Bloomberg research, with manufacturer prices estimated from retail prices based on typical markups; Brazil and India Sovaldi prices are from Gilead Sciences Inc.
