Caffeine helps the body absorb medications and can make pain relievers more effective, he said. But Excedrin could be a valid option for some severe migraine sufferers, he added. Meet world's tallest teenager 4 Surprise baby: For the analysis, the researchers only looked at data from the severe migraine sufferers in a previous study, most of whom were female and white. Over the counter medications ibuprofen and Excedrin both relieve the pain and symptoms of severe migraines better than placebo, according to a new study. Goldstein is director of the San Francisco Clinical Research Center and was paid by Novartis for his work on the trial. Members of the third group received only four placebo tablets. Headaches and Migraines Over-the-counter medicines may relieve severe migraines, study says Published May 09, Reuters. But he cautions that it should be taken reasonably and appropriately. Migraine medications like Imitrex, for severe migraine, are only available by prescription in the U. Each dose of Excedrin used in the study contained mg acetaminophen, mg aspirin and mg caffeine, which is more standard, Pauuw said. Excedrin users reported more pain relief than ibuprofen users from 45 minutes through four hours post medication. He also noted that the study dosage of ibuprofen, milligrams, was only about half of what he would recommend for his patients. Goldstein stressed the importance of caffeine, which is an ingredient in Excedrin but not in ibuprofen. That medication, a combination of acetaminophen, aspirin and caffeine, is currently recommended only for mild or moderate headaches, as is ibuprofen. Aside from being backed by the pharmaceutical company, it was a reanalysis of previous data, which weakens the results, and a large number of people in the placebo group reported some headache relief, he said. At the two-hour time point, 62 percent of Excedrin users reported some headache relief from the medication, compared to 54 percent of ibuprofen users and 47 percent of placebo users, according to the results published in Cephalgia.
