The study involved adult patients older than 18 years with psoriasis and this was reflected in the authors' conclusions. No dates relating to either the effectiveness or cost data were reported in the study. The total costs for the two treatment options were not reported see Synthesis of Costs and Benefits. Link between effectiveness and cost data Although not explicitly stated, it appears that the costing has been performed prospectively on the same sample of patients as that used in the effectiveness analysis. The sample size was not determined in the planning phase of the study, and power calculations were not performed retrospectively. Study sample The sample size was not determined in the planning phase of the study, and power calculations were not performed retrospectively. In addition, there was no sensitivity analysis of either the cost or quantities. The clobetasol foam resulted in a mean decrease in PASI score of 5. Differences in QOL, as reported in the DLQI, were not statistically significant and this measure of benefit was not used in the economic evaluation. Source of funding Supported by an unrestricted grant from the Connetics Corporation. You should decide if this is a widely used health technology in your own setting. Second, the follow-up period 14 days for which symptom improvement was evaluated was considered to be quite short, as it did not necessarily provide a change for the outlook, prognosis or restrictions on daily activities imposed by a lifelong condition. The authors suggested that clobetasol foam was a better treatment than the clobetasol cream-solution combination for the treatment of mild to moderate psoriasis when considering the increased improvement in clinical severity, the decreased application time, and the increased perception of relative efficacy combined with similar treatment costs. Clobetasol (Clobex, Olux, Clodan, Cormax, Temovate, Embeline) is an expensive steroid used on the skin to treat itching, redness, and swelling caused by some skin conditions. It is not covered by most Medicare and insurance plans, but manufacturer and pharmacy coupons can help ?Drug Info ?Images ?Side Effects ?Medicare.
