Not surprisingly, many of the drugs topping the list carried high price tags. Comment Please enter a comment. Like many analyses of drug pricing, this latest report relied on list prices, which are not the actual costs, noted Jeff Myers, who heads Medicaid Health Plans of America, a trade group for Medicaid managed care organizations. Vicodin and Suboxone, which is the brand-name for the combination of buprenorphine and naloxone, were among the costliest since they were frequently prescribed. Nonetheless, he argued that the Kaiser analysis further confirms the trend that rising prices remain an issue. However, the analysis, which examined list prices before manufacturer rebates, noted that 45 of the 50 costliest drugs were considered high-cost items partly because they were frequently prescribed.
