The above information is an educational aid only. Blood contains platelets which is the specific component that aids coagulation to prevent excessive bleeding. Sign Up to receive our Newsletter Great deals and healthy living tips sent straight to your inbox! Since the drug works on the platelets in the blood, it is important to have some blood tests done on a regular basis. Be advised that, given the international nature of the practice of International Prescription Services IPS pharmacy, there may be limitations in the ability of the College of Pharmacists of Manitoba CPhM, which is the statutory licensing authority for pharmacies and pharmacists in the Province of Manitoba, to investigate and prosecute complaints from persons who receive services or products from an IPS pharmacy. In addition to these side effects, there are some more serious side effects as well. Plavix is not an over the counter drug that can be consumed without a prescription. Plavix or Clopidogrel works with adenosine diphosphate ADP in blood by preventing it from binding to its receptors on platelets that cause them to lumps together and form clots. Some of the signs of an overdose of Plavix are dizziness, shortness of breath, feeling uneasy of vomiting sensation. Some of these are mild headaches, pain in the stomach, cold-like symptoms such as sore throat or a runny nose. Any drug works at the biochemical level by specific compounds. If you are on a personal connection, like at home, you can run an anti-virus scan on your device to make sure it is not infected with malware. Therefore Plavix is prescribed for patients with blood related disorders or who have a history of stroke and heart disease. They can only fill prescriptions issued by a physician licensed in a province or territory of Canada. The drug should not be self administered as it can cause potential harm in some people. One more step Please complete the security check to access www. However since it is usually recommended for people who might have cardiovascular diseases, they must maintain a healthy diet. Patients must never tamper with the dose and increase or decrease the dose without consulting their physician. Clopidogrel is the active chemical ingredient in Plavix and more specifically it is used in the clopidogrel bisulfate clopidogrel hydrogen sulfate format for commercial purposes.
