This may sound obvious, but the key thing to pay attention to is not what's written on a box, but what actually works for you. Allegra is the least likely to make you drowsy. If your primary symptom is a stuffed up nose, you can also ask your doctor about decongesting nasal sprays. Deals at this store. Research suggests that switches in a given medication's color or shape may prompt many patients to discontinue needed medicine. Due to inactivity, you will be signed out of Walgreens. Choosing congestion tablets is sometimes a hard task for shoppers because you have several different choices. Most require a prescription, but Nasacort is one that recently became available over the counter. Please choose to continue your session or sign out now. In recent years, the makers of dozens of the nation's most prescribed medications have lost their exclusive marketing rights to drugs they developed. If you can't, consider an allergy medication with an added decongestant. Zyrtec acts the fastest usually within one hour but is also the most likely to make you drowsy, so avoid driving, alcohol, and sedatives as you figure out how you react. That said, they do have some very slight differences which probably aren't noticeable to every user. The same antihistamine in Zyrtec, for example, is available as Aller-Tec at Costco, as Wal-Zyr at Walgreens, or even totally "unbranded" almost anywhere. Some items in stores aren't listed online.
