Get the full up-to-date details from the U. The doctors were fine. After weeks of suffering using generics to no avail, I bit the bullet, paid the price and bought name brand meds that cured my illnesses. It's not a good idea to play doctor by self-diagnosing your illness. If you are buying a name brand, the potency will assuredly be higher than that of a generic drug, but will also be more expensive. Lab tests, medical consultations and treatments are quite affordable in Mexico so you don't have to worry about having cardiac arrest after receiving a bill for an office visit. Mexican law requires a prescription from a Mexican physician, and that prescription must have the seal of the state health department. Though many pharmacies in Mexico sell prescription drugs over the counter without a prescription, according to the U. Drug manufacturing companies set the highest price they believe that a given national market can handle. Many clinics like Cabo Cosmetic Dental and Cabo Cosmetic Surgery in Baja California Sur, offer free online consultations but are limited to prescribing antibiotics or pain killers to be taken for a few days prior to a scheduled medical treatment and cannot diagnose illnesses online. The generic medications were a waste of time and money as they seemed too weak to cure my infected kidney or a year later my bronchitis. Now, Mexican authorities are beginning to crack down on such commerce. Customs, to bring back prescription drugs into the U. Technically these drugs do require a prescription but the law is routinely ignored. Many drugs that require a prescription in the U. Drug Uses Metformin is used for treating type 2 diabetes.
