I didn't "abuse" it as such, but I did take more than prescribed because I was desperate to stop coughing! I felt like this guy basically stole a bucks from me, cause he did not supply me with any information that I didn't know This may have something to do with Pharmaceutical marketing, but I think also because Americans pay good money for their health care they feel much more obligated to appease their patients. You truly don't know what you're talking about. Originally Posted by yteek. Doctors here wont give sufficient opiates to people in pain with evidence xrays etc , its really not the pill wonderland your imagining. They haven't been severely tarnished as with something like pain pills. It's actually way more work and money involved for a doctor to prescribe you Tylenol 3s than it is for you to go to a Safeway and buy a bottle of T1's and eat 3 or 4. This is exactly in place to deter drug seekers. I think it's the perfect opiate honestly. Ingredient Name. Promethazine and Codeine (proe METH a zeen & KOE deen) TELL YOUR DOCTOR: If you have an allergy to codeine, promethazine, or any other part of this drug. Tell your doctor and pharmacist about all of your drugs (prescription or OTC, natural products, vitamins) and health problems. You must. Find information about which conditions Promethazine-Codeine Oral is commonly used to treat. If you're like everyone I'm seeing in the clinic these days, your cough may be keeping you up at night, and driving you and your coworkers crazy. Do any of the over-the-counter (OTC) or prescription medications really work for a cough? Let's walk through it. First, let's go through the OTC cough suppressants. Acute cough. Jan 18, - yes you do need a prescription for promethazine w/codeine. as far as the narcotic mention, yes this is a schedule V drug (because of the codeine). schedule V being the most likely to be misused or habit forming but there is some dependance potential. you need a prescription for promethazine rubeninchids.com is the differance in yellow, purple and red syrup. Jump to Photos by medication strength - *The photos shown are samples only. Not all photos of the drug may be displayed. Your medication may look different. If you have questions, ask your pharmacist. Feb 26, - Chronic pain patients prescribed only a long-acting opioid were more likely to have promethazine-positive urines than patients prescribed a Starting in the late 's, there were reports that teenagers in Texas were drinking cough syrup containing codeine and promethazine to get high (Mattoo et al. Jan 19, - Sometimes, the minute you step into the room, you just know it's not going to go well -- as it didn't with the mother of this teenage rubeninchids.com daughter sat quietly on the exam table, coughing. Next. You don't want the Codeine w/promethazine cough syrup. You want the Hydrocodone cough syrup. Also known as Tussionex. This is 10mg of Hydrocodone per tsp(5ml) and is the highest strength you can get. Codeine itself makes you feel kinda dirty in comparison, you have to take a lot more of it, and mixing it with that. I've also been having trouble finding promethazine codeine syrup. I've been looking around (asking friends) for a few months not and have not been successful. Id appreciate any advice on how to get a prescription for painkillers or promethazine codeine. Ps: if i ended up getting s prescription from a doctor. what symptoms do I need to have to get a prescription from a doctor? I need this for rubeninchids.com reasons. Or is there a way I can get it without any of that bullsh!t Legally? Premeditated is offline.
