Available for Android and iOS devices. Statins are useful in the treatment of high cholesterol because they can decrease the incidence of major coronary events and death in patients. As always, exercise is important to help reduce the risk for heart disease by keeping blood pressure and cholesterol levels under check. LDL levels in the Crestor group dropped to an average. If you experience muscle aches, the most common side effect of statins, your doctor may prescribe a lower dose or simply try a different type of statin. Apadaz Apadaz acetaminophen and benzhydrocodone hydrochloride is an immediate release combination of Two other statin types, fluvastatin Lescol and pitavastatin Livalo, are not as widely used in the United States. There are seven different types of statins approved for use in the United States, and each one works in the body a little differently. Be sure to tell your doctor about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements. Ask your doctor or pharmacist for a complete list or view more atorvastatin side effects here. The new study, led by Dr. We comply with the HONcode standard for trustworthy health information - verify here. Generic substitution is not the only controversial issue surrounding atorvastatin and other cholesterol-lowering statins. By the end of the study, both groups had significant reductions in the fatty plaque lining their arteries, with few serious side effects. Slightly less potent is simvastatin Zocor. Asking about a generic alternative is always a good idea. So, how to choose? To view content sources and attributions, please refer to our editorial policy. Feb 1, - Generic atorvastatin became available for the first time in November after Lipitor lost its patent protection. notes that the FDA is legally required to determine that generics are "bioequivalent" to brand-name drugs, which means they produce similar blood concentrations of the same chemicals. Oct 5, - Generic Name: atorvastatin (a TOR va sta tin) Brand Names: Lipitor. Atorvastatin is the generic formulation of Pfizer's Lipitor, one of the best selling drugs of all time. The cholesterol-lowering statin, is a familiar brand name that went the way of generics in Over its branded history, Lipitor brought in over. Brand Names: Lipitor. Generic Name: atorvastatin (Pronunciation: a TOR va sta tin). What is atorvastatin (Lipitor)? What are the possible side effects of atorvastatin (Lipitor)? What is the most important information I should know about atorvastatin (Lipitor)? What should I discuss with my healthcare provider before taking. Lipitor (atorvastatin) is a prescription drug used to lower blood cholesterol. Common side effects are What is Lipitor (atorvastatin)?; Is Lipitor (atorvastatin) available as a generic drug? Do I need a prescription. To reduce the likelihood of this interaction both drugs should be given at the same time. Lipitor should not be. Mar 2, - Atorvastatin and simvastatin both target the same chemical in the body to reduce drastically the bloodstream levels of LDL (low-density lipoprotein, or "bad cholesterol"), which lowers the risk it will clog up arteries, a central cause of cardiovascular problems. These drugs also modestly raise levels of "good. Feb 9, - So generics are not the same after all. The good news, though, is that Pong said that having a little bit more or a little bit less of the active ingredient in your bloodstream usually doesn't matter, and here's an example of why. Suppose that you decide to stop taking Lipitor and take generic atorvastatin instead. Mar 30, - Both simvastatin and atorvastatin are film-coated tablets that you take by mouth, usually once per day. Simvastatin comes under the name Zocor, while Lipitor is the brand name for atorvastatin. Each is available as a generic product, as well. You can buy either drug in most pharmacies with a prescription. Nov 29, - Second, Pfizer, the maker of Lipitor, has reportedly negotiated lower prices for the drug with several large insurance companies and pharmacy benefit managers. As a result, the generic and brand-name versions will cost about the same. But there is another way to save on cholesterol-lowering medication. Nov 23, - It should come as no surprise that HMOs, insurance companies and many patients were thrilled to learn that Lipitor lost its patent last November and would become available as generic atorvastatin at a reduced price. The first manufacturer to market a generic version of Lipitor in the U.S. was an Indian. Dec 4, - Crestor is only available as a brand name while Lipitor (atorvastatin) and Zocor (simvastatin) have generic versions. This may seem obvious, but brand-name statin drugs are expensive and generics are much cheaper. Many of you don't take your statin as prescribed. We know that patients don't always.
