Mild weight gain is common due to increase in subcutaneous adipose tissue. Please upgrade your browser. There is tentative research that suggests that pioglitazone may be useful for treating major depression. Given previous experiences with the related drug troglitazone, acute diseases of the liver are regarded as a contraindication for pioglitazone. Pioglitazone brand name Actos is a prescription drug of the thiazolidinedione TZD class with hypoglycemic antihyperglycemic, antidiabetic action to treat diabetes. Takeda stopped development of a successor drug to Actos earlier this year over concerns of possible liver damage. In the other five, the juries found in favor of the plaintiffs, but in two of those cases the judge subsequently ruled in favor of the company. You are already subscribed to this email. You are now following this newsletter. Retrieved 24 December The settlement is one of the largest product-liability settlements in the pharmaceutical industry. The amount given to individual plaintiffs will depend on their particular circumstances, like the cumulative dosage of the drug used, the extent of the injury and their smoking history. Sales of Actos increased after concerns arose starting in that Avandia might increase the risk of heart attacks. By using this site, you agree to the Terms of Use and Privacy Policy. Actos Sales Data. Last updated: February (updated quarterly). The following data shows Actos U.S. retail sales in Q4 compared to previous quarters. Actos Sales Units Q1/ Q2/ Q3/ Q4/ Q1/ Q2/ Q3/ k k k k k k k Sales (\$) 1, 1, 2, Apr 10, - Motley Fool noted that during, Actos sales peaked with \$ billion in sales and accounted for 27% of Takeda's revenue. "The drug has since gone off patent and faces generic competition from Ranbaxy Laboratories and other drugmakers," the article notes. Under Lilly's agreement with Takeda, Lilly, Actos became the world's best-selling diabetes drug in after rival drug Avandia (rosiglitazone), made by GlaxoSmithKline, was linked to a higher risk of heart attack. Avandia and Actos come from the same family of drugs: Thiazolidinediones (TZDs). Before the manufacturer lost the patent on Actos in, its U.S. sales. Apr 8, - Takeda still faces about 2, pending lawsuits over Actos, according to data compiled by law firm Bernstein Liebhard. The jury verdict was yet another legal headache for Takeda, which raked in billions in Actos sales before its patent expired in Since then, the company has faced generic competition. Feb 27, - Generic drugmakers Teva and Sun Pharma actually launched a generic version of Protonix in, but in, a judge upheld the patent till. Over the first nine months ending in December of its fiscal, Actos recorded sales of billion yen (\$ billion), or 27% of its total revenue. Sales. Jun 17, - This follows on the heels of European nations taking steps to ban the drug outright: on June 9, France and Germany suspended all sales of Actos and its combination drugs, citing -- among other evidence -- a study published in the April issue of Diabetes Care linking Actos to a higher rate of bladder. Apr 28, - According to a filing in the Louisiana case, sales of Actos in the United States have exceeded \$24 billion since it went on sale in, with more than million prescriptions written. The Food and Drug Administration added a warning about the risk of bladder cancer to the label for Actos in Jun 3, - Testimony in the trial comes about a month after Osaka, Japan-based Takeda won U.S. regulatory approval for Nesina, a replacement for Actos, which lost patent protection last year. Actos sales peaked in the year ended March at \$ billion for Takeda, accounting for 27 percent of the company's. Apr 28, - The verdict comes almost three months after Takeda won U.S. regulatory approval for Nesina, a diabetes drug to replace Actos, which lost patent protection last year. Actos sales peaked in the year ended March at \$ billion, or 27 percent of Takeda's revenue at the time, according to data compiled. Aug 17, - It's not a megabrand like Lipitor or Plavix, but the diabetes drug Actos has brought in more than \$3 billion in U.S. sales at its peak, and more than \$16 billion total since its release in And now, it Still, Actos accounted for about 18% of Takeda's revenue--and a whopping % of U.S. revenue.
