I have tried the Scopace as well as the just store brand meclizine. The Scopace I like for shorter trips and the fact that I wasn't tired at all after it wore off! But from what I read I will not try it! Available for Android and iOS devices. DB ATC code s: Hepatic or renal impairment. Only one that was effective was Marezine. GI or GU obstruction. To view content sources and attributions, please refer to our editorial policy. May be potentiated by CYP2D6 inhibitors. I sure wish they would bring back Scopace! Deepti on September 24th The information contained herein is not intended to cover all possible uses, directions, precautions, warnings, drug interactions, allergic reactions, or adverse effects. Drowsiness, sedation, dry mouth, blurred vision. I like both and they worked well. Subscribe to receive email notifications whenever new articles are published.
