Do not increase your dose, use it more often than prescribed, or apply the medication to any area not prescribed by your doctor. When you are ready to discard the dosing card, fold the card in half with the medication side inside and throw away out of the reach of children and pets. Place a dosing card on a flat surface so that you can read the print on the card. Discuss the risks and benefits of using Voltaren Gel with your doctor or pharmacist. Ask your doctor or pharmacist about how much alcohol you may safely drink. Many people using Voltaren Gel do not have serious side effects. Voltaren Gel may raise your blood pressure. Before using Voltaren Gel, women of childbearing age should talk with their doctor s about the benefits and risks such as miscarriage, trouble getting pregnant. However, if your doctor has directed you to take low-dose aspirin to prevent heart attack or stroke usually at dosages of milligrams a day , you should continue taking the aspirin unless your doctor instructs you otherwise. Before using diclofenac, tell your doctor or pharmacist if you are allergic to it; or to aspirin or other NSAIDs such as ibuprofen, naproxen, celecoxib ; or if you have any other allergies. Daily use of alcohol and tobacco while using Voltaren Gel may increase your risk for stomach bleeding. For certain conditions such as arthritis , it may take up to 2 weeks of using Voltaren Gel regularly until you get the full benefit. Drug interactions may change how your medications work or increase your risk for serious side effects. The dosage is based on your medical condition and response to treatment. To reduce the risk of side effects, use Voltaren Gel at the lowest effective dose for the shortest possible time. Talk to your pharmacist for more details. Before having surgery, tell your doctor or dentist about all the products you use including prescription drugs, nonprescription drugs, and herbal products. Do not apply the medication on skin that has cuts, infections, or rashes. This document does not contain all possible drug interactions.
