Makers of Generic Drugs Challenge F. The agency allowed the companies to continue selling their drugs, but gave them six months to either prove the drugs were equivalent, or remove them from the market. When Concerta was approved in , it was welcomed by doctors because it eliminated the need for patients to take Ritalin three times a day. Rite Aid would not comment on its financial arrangements with the generic companies, or on whether its pharmacists were asking doctors to switch prescriptions. Major pharmacies like CVS and Rite Aid continue to stock them, and together the drugs have managed to hold on to about 30 percent of the market. The agency said that although it considered the drugs to be safe, its own lab tests and other analyses suggested that their effectiveness began to wear off much more quickly after about seven hours.
