Ensure the site you seek to get the prescription medication provides this important certification information; otherwise it's an illegal site most likely offering generic substitutes that might be harmful to your health or ineffective to treat your condition. Zithromax doesn't treat infections caused by a virus such as the common cold or flu. Two hours before taking Zithromax or within two hours of taking the medication avoid antacids, particularly those containing magnesium or aluminium. We understand that as you search for the best treatment on certain medical conditions you might never get the answers you seek even after reading a tonne of information online. After intake of Zithromax, avoid tanning beds or sunlight exposure as it can make sunburn worse. In case of allergic reaction to the use of Zithromax you should seek emergency medical advice right away. Sometimes antibiotics cause diarrhoea that could actually be an indication of another infection. UKMedix requests that you talk to our team of doctors immediately and directly to have all the additional and unanswered questions answered. Remember by skipping doses you're actually increasing the risk of attaining serious conditions resistant to Zithromax and other antibiotics. See all other options available. We take this a notch higher by ensuring the best medical advice is provided throughout the treatment process. Zithromax - Genuine Novartis medication UKMedix offers access to authentic and trusted medication from known pharmaceutical companies trusted by millions in Europe and globally. As you search for the best treatment for micro-organism or bacterial caused infection, it's sometimes hard to access prescription medication due to distance or urgency. This is why we offer genuine Novartis medicine and not generic alternatives. UKMedix online consultation form gives our medical doctors the answers they need to understand the level of your bacterial infection, including any other sickness caused by micro-organisms. Headache Stomach pain, vomiting, nausea Diarrhoea Of course more side effects might occur with the use of Zithromax and it doesn't mean these side effects must be there. Zithromax cannot harm a pregnancy or the unborn but you might want to let your doctor know in case you're pregnant or working on being pregnant. UKMedix strongly advises that while buying Zithromax on the web you don't purchase from any website, unless it's regulated by the government and provides authentic medically prescribed medications. In case you ascertain you have bloody or watery diarrhoea stop Zithromax intake and contact your physician. If you overdose Zithromax, call your doctor immediately or emergency medical hotline for immediate help.
