I have used ritalin and dexadrine in the past with almost the same results. Patient Assistance Programs for Concerta  
Patient assistance programs PAPs are usually sponsored by pharmaceutical companies and provide free or discounted  
medicines to low income or uninsured and under-insured people who meet specific guidelines. Flip through the  
Booklets. Personally the only thing concerta does for me is provide a study aid. The Patented Medicine Prices Review  
Board is investigating the makers of Concerta and Adderall XR for price gouging after a review that shows these  
drugmakers charge consumers to percent above the maximum level set for ADHD drugs. You could have ended up in  
the ER with sever tachycardia, arrhythmia, cardiac arrest, psychosis We must consider that Concerta is also a once a day  
medication where Ritalin is a three times a day drug. However, due to stock shortages and other unknown variables we  
cannot provide any guarantee. You really should give it a try; http: Can you have fun? Looking to reduce costs at the  
pharmacy counter? For the record im So cut in halfish, cut the plastic pill capsule away from the pink and white parts  
For me I started getting paranoid after i took a break for a while and then started back up. For many families, especially  
those without insurance coverage, the costs of these new drugs can be overwhelming. As far as concentration goes, i  
think they're about the same but the concerta focalin almost feels more stable and not quite as cracked out as long as you  
don't take milligrams lol. In , the Drug Enforcement Administration DEA revealed the results of studies on both animals  
and humans who were given cocaine and Ritalin.Methylphenidate ER (Concerta) is an expensive drug used to treat  
attention-deficit hyperactivity disorder (ADHD). It is not covered by most Medicare and insurance plans, but  
manufacturer and pharmacy coupons can help offset the cost. Prices and coupons for 30 tablets of. Just asking because I  
just took one for studying from my mate who has adhd (he gave it to me) and I was wondering how much it would cost  
or how Getting some 54mg concerta is it worth it? Street price? METHYLPHENIDATE (meth il FEN i date) is used to  
treat attention-deficit hyperactivity disorder (ADHD). It is also used to treat narcolepsy. Furthermore, I've bought a lot  
of pills from a lot of different people, and no one seems to be consistant in their pricing. I've gotten Adderall for as little  
as \$2 per 30 and been offered the same for \$8 a pop (I decided to pass, obviously)! Vikadin is either given to me for free  
or Concerta's \$5 for 27mg or 36mg. Price Medication - Obtain coverage and pricing information for any medications
