Dosage Finpecia is usually taken only once a day, one 1mg tablet every day. Unfortunately, it is only effective against male pattern baldness and no other type of baldness because it acts on the underlying cause of this type of hair loss. Finpecia is taken with a full drink of water, regularly and only in those dosages that the doctor has recommended. Usedom Open Listopad 22nd, Author: Finpecia side effects are milder and temporary in nature. Finpecia should be kept out of reach of pregnant women and small children. W dniach sierpnia r. What is Finpecia 1mg - It is a prescription drug that is used for treating hair loss in men. If the missed dose is too close to the next one, just take the next scheduled dose. An overdose on Finpecia will not cause life-threatening symptoms or results but you still need to contact emergency medical services if you think you have taken too many Finpecia tablets. Powered by and WordPress Theme. Finpecia is a type II 5alpha-reductase inhibitor which means that it blocks the activity of 5-alpha reductase and thus causes the production of dihydrotestosterone in the scalp to drop as testosterone cannot be converted in amounts that would lead to hair loss. If you do not experience any benefits after 12 months of use, you should discontinue the use. You should not use Finpecia if you are allergic to finasteride or dutasteride.
