While most antibiotics will work on treating such infections, using more potent ones is often the best solution. Not only are they more effectively, but their treatment is also more efficient. There are different ways on how you can catch a bacterial infection. If you use metronidazole tablets, you will be able to effectively get rid of the infection and purge the infectious organism out of your body. Urinary tract infection UTI is a bacterial-related infection of the urinary tract. When it comes to antibiotic treatment drugs, one of the most effective and most prescribed by doctors is called Flagyl. In the past, treatment of bacterial infections was difficult because people did not have access to antibiotic medications, nor did they even understand or have any idea as to what was causing their diseases in the first place. However, in some parts of the world, it is not fairly easy to buy Flagyl, especially if you belong to a certain country or territory that does not allow one to buy Flagyl over the counter because of various medical rules and restrictions. Since bacterial infections can cause a variety of issue to the body, it is therefore important to treat any infection developed at the soonest possible time. It is effective against different bacterial infections, particularly bacteria that are anaerobic. Aside from dosage, if you consult a medical professional regarding a bacterial disease or infection, your doctor will subject you to an antibiotic course treatment, which is necessary as this is the only real way to effectively get rid of any such infections. Since they are ubiquitous, hygiene is not an assurance that you are safe from these microbes. You need to take metronidazole over a period of seven days. You will take one mg tablet twice a day. Swallow the tablets whole with a drink of water. You can take them with or after a meal. Your BV symptoms may improve within days but it is important that you finish the whole course you have been prescribed. Feb 18, - Oral metronidazole (Flagyl) mg twice a day for 7 days, metronidazole (Metrogel-Vaginal) gel % and vaginal suppository once a day for 5 days, and clindamycin (Cleocin, Clindesse) cream 2% and vaginal suppository once a day for 7 days have equivalent effectiveness for ridding you of BV.
