His feelings changed last November, however, when the Food and Drug Administration announced that two of the three available Concerta generics, one made by Mallinckrodt Pharmaceuticals and the other by UCB, could no longer be considered the equivalent of the brand and, in most states, could not be automatically substituted by pharmacies for the brand name. Would you like to view your HealthSavvy Programs now, or stay on this page and continue reading this article? Various other manufacturers, such as Mallinckrodt, Inc. That time frame is important, because the pill can be taken only once a day. Because the medication is released slowly, it can be taken just once a day, eliminating the need to take medication at school or work. This means that the original manufacturer supplies Watson with brand-name Concerta tablets, which Watson packages and sells as a generic drug. Accessed May 13. You agree to receive occasional updates and special offers for The New York Times's products and services. When Concerta was approved in, it was welcomed by doctors because it eliminated the need for patients to take Ritalin three times a day. Jun 17, - However, as it turns out, he didn't need a stronger dose of what he was on! He needed Concerta or an equivalent generic! Not a new product!!! I turned my complaint on this drug into the FDA. If your child is having issues, please check the manufacture of your child's generic. You and your child could also. A generic version of Concerta has been approved by the FDA. However, this does not mean that the product will necessarily be commercially available - possibly because of drug patents and/or drug exclusivity. The following products are equivalent to Concerta and have been approved by the FDA. Dec 31, - Three Concerta generics are slowly making their way into consumer hands, and already I'm hearing negative reports. This post provides a quick run-down. Please leave a comment if you have useful information. Nov 26, - Now I've heard there will be new generics from Trigen Laboratories, Mylan and Impax Laboratories that do not use the special delivery system of Concerta once again. I'm worried because it took many many months of people filing reports with the FDA through MedWatch before the FDA finally stopped. Jan 29, - Concerta and Adderall are medications used to treat attention deficit hyperactivity disorder (ADHD). These drugs help activate the areas of your brain that are responsible for focusing and paying attention. Concerta and Adderall are the brand names of generic medications. The generic form of Concerta is. Nov 8, - In our latest question and answer, we discuss which generic Concerta products are classified as bioequivalent (AB rated) to the brand name. Jul 17, - "Approval of our AB-rated generic version of Concerta further demonstrates the capabilities of Impax's R&D organization," said Paul Bisaro, President and Chief Executive Officer of Impax. "We are preparing for launch including working to secure API quota and currently expect to launch by the end of this. Oct 26, - Last week, Johnson & Johnson caught a break when the FDA kicked a pair of controversial copies of its ADHD med Concerta off the market. Now, there's a new challenger stepping up to the plate, though--and that's Mylan. Tuesday, the generics behemoth won FDA approval for its knockoff for all Concerta. Oct 18, - The US Food and Drug Administration's (FDA) Center for Drug Evaluation and Research (CDER) on Tuesday proposed withdrawing two generic versions of Janssen's extended-release attention deficit hyperactive disorder (ADHD) drug Concerta (methylphenidate hydrochloride) two years after determining. FRIDAY, Nov. 14, (HealthDay News) -- Two generic versions of the attention-deficit/hyperactivity disorder drug Concerta may not work as effectively as the brand-name product does, the U.S. Food and Drug Administration said Thursday. The agency analyzed available data and conducted laboratory tests on the two.
