Representatives for Wockhardt and Dr. When he switched them back to the brand or to another generic the symptoms disappeared, he said. AstraZeneca Anna Padula, Cell: The recalls are the latest in a string of recent problems involving generic drugs, especially those made in India. Even as the agency has stepped up its scrutiny of generics, however, it has maintained its long-held position that generic drugs are generally as safe and effective as the brand-name versions. Harry Lever, a cardiologist at the Cleveland Clinic, has been warning nearly anyone who would listen of his growing suspicions about generic versions of a widely used heart drug, Toprol XL. The recalls are considered Class II, meaning they may cause temporary health problems but are unlikely to pose an immediate safety threat. The number of recalled bottles is relatively small compared with the 38 million prescriptions for the drug, known generically as metoprolol succinate, that were filled in the United States in , according to the research firm IMS Health. Contact your doctor if you have any difficulty in breathing. A report from the American Heart Association. They come as the F. If you experience any of these side effects, contact your doctor.
