Alprazolam is used primarily for the treatment of neurological disorders such as moderate to severe forms of anxiety disorders and panic attacks. But as has been discussed many times, generics are no different to brand Name, i would attribute it to either, taste, texture or placebo. There is a reason and it is because benzos have an ability to create insane tolerance and very subjective results depending on your use of benzos. Withdrawal symptoms are commonly experienced once tolerance to the drug develops. Alprazolam is manufactured by various pharmacologic companies while Xanax is solely and exclusively produced by the Pfizer Company. I was prescribed Xanax for years, always got generics, many different kinds of generics over the years and I never noticed any difference, except that 2mgs felt stronger than 1mg, obviously. There are some instances when these inactive ingredients mixed with the generic Alprazolam produce undesirable adverse reactions like allergies or sensitivities. Although both drugs contain the same active ingredients, Alprazolam is manufactured by various pharmacologic companies while Xanax is solely and exclusively produced by the Pfizer Company. Nowadays, many companies make generic versions like Alprazolam in order to allow people to have a much cheaper alternative to the branded ones sold in the market. Alprazolam is a drug of the benzodiazepine class with a short-acting potency. User assumes all risk of use, damage, or injury. There is no need to resubmit your comment. Pfizer owns the trademark name to Xanax, so if you ever get a brand name xanax, its made by phizer. I also know purepac lorazepam ok I sound like a sales rep lol, are the best ativan The only brand name 2mg they said they could order was Pfizer? Initially, Alprazolam is the generic name for Xanax. You agree that we have no liability for any damages. Feb 22, - The green and yellow Xanax are also very good, (Dava, is green. R, is yellow.) But I just hate how some people think the pills are better because of its color, lmao. Like I said, I've tried those brands of Xanax bars, and my #1 is Pfizer and my #2 is greenstone, and guess what, those pills are both white, Drug info - - Which Xanax are the most potent? Aug 13, - I was on Alprozalam from "98"- "04", but the pharmacy stopped carrying the brand (Roache), and the new generic they had was like taking candy, did nothing for rubeninorchids.com Pshyc explained that the filler in the various generics was the difference, and he started me on name brand in "04". I've been taking 8 mg What is the difference between yellow Aprazolam. Well just my 2 cents here but i'm sure i'm not the only who who has encountered this.. i've been on xanax since and i don't really need much to get me thru the day.. i usually take .5mg at a time and i used the brand name till the generic came out (I don't even recall exactly when that was now) and. Generic Xanax. The best generic brands are as follows 1) Greenstone - as they are manufactured by the same pharmaceutical company that makes the brand thers a mom n pop pharmacy around the corner from my house that still has the yellow bars (actavis R is the imprint) yea i like those too. they. I suggested to my doc that he try writing me a script for a brand name Xanax, rather than just the generic 2mg Mylan ones I've been getting. it is, i have found that the best generic is sandoz. i only buy bars for recreational purposes but out of all the ones that i have taken sandoz always gets me good with Xanax prescriptions. All about GREEN XANAX BARS: shapes, brands, indications, dosage. ???BEST VARIANTS TO BUY ONLINE! I can't tell any difference other than Mylan refuses follow convention and make 2 mg alprazolam into bars (Mylan insists on a stupid round shape that is hard to break as . its best just to find what your body metabolizes the best, its really different for everyone. i have never tried the brand name xanax.
